

Dalith Steiger-Gablinger

Dalith is an independent non-executive Director and a Board Member of Marcuard Heritage AG.

Career

Dalith Steiger-Gablinger is the Co-Founder and Managing Partner of SwissCognitive, an AI advisory, venture and research company. She advises boards, C-suites, and organizations on the strategic and responsible adoption and scaling of AI, focusing on the intersection of technology, people, and business impact. She helps them navigate AI-driven transformation and governance. Dalith serves as Associate for the AI Stream at the CDLab at HEC Paris (École des hautes études commerciales Paris), is the CEO of the Swiss IT Leadership Forum and sits on several boards and juries that are shaping the future of responsible AI and digital leadership. Recognized as one of the world's leading AI thought leaders, she translates complex AI topics into accessible, actionable insights for decision-makers. In 2025, she received the Distinguished EuroKnowledge Global AI Innovation & Digital Transformation Leadership Award at the House of Lords in London, among other awards.

Education & Languages

Dalith was born in Israel, grew up in Switzerland, and studied mathematics and business informatics at the University of Zurich. Dalith is fluent in German, English and Hebrew and additionally possesses working proficiency in French and foundational knowledge of Italian.
